Message From The Chairman

Sh Parmjit Gandhi

Chairman

**Billabong High International School
Noida**

Dear all,

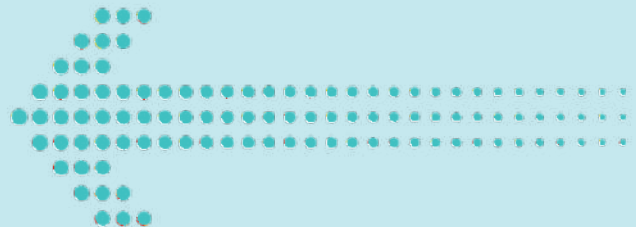

Our learners are nation-builders and the agents of change. The years that they spend at BHIS Noida would enable them to be equipped with leadership, managerial and 21st century skills to bloom into life-skilled citizens. The knowledge that they gain, the fine qualities that they imbibe and the skills that they learn would stand as their major contribution to the society and the nation.

We acknowledge the parents for reposing their faith, hope and complete confidence year after year, by entrusting their wards to us to mould them into worthy citizens of the society.

The ideas and aspirations of a student sprout from their kindled minds and soul. We at BHIS Noida endeavour to turn the opportunities into reality by nurturing them through conscience based holistic education encompassing - academics, co-curricular activities, sports education and life-skills learning. The campus, state of the art sports infrastructure and academic facilities all bear testimony to this effort.

In order to promote an integrated holistic curriculum, our key focus has been on faculty development – providing continuous teacher training for imparting the latest in pedagogy for the students whilst ensuring a respect for inculcating values of tradition and discipline and at the heart of it, the school mentors have always strived for the well being of the future of our learners.

All the Best!

Message From The Director

Dear all,

It gives us immense pleasure to share the school magazine to give you all a glimpse into the achievements and accomplishments in academic, curricular and extracurricular domains. The school provides a conducive atmosphere for nurturing talent, cultivating skills and maintaining values of life. Our mission is to make quality education accessible to the new generation, who are the future citizens of our country.

There is nothing more valuable to a parent than its child and when a parent is entrusted with this belief in us, it becomes a lifetime task.

The values that the learners imbibe in an institution add excellence to their character. They liberate from narrow and negative thinking and help to evolve into better human beings.

We pride ourselves on creating a culture of learning where students are free to express or share their interest in a plethora of fields while developing their character as well. Delayed gratification, integrity, civic responsibility and the willingness not to give up: these are the values that we seek to inculcate in our students. With extra-curricular classes, a strong emphasis on communication skills and activities foster cultural understanding so that the learners emerge as elucidated and responsible citizens of the society and country.

Wishes for all!

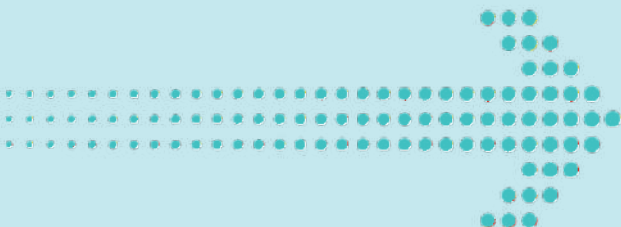

Ms Jasmine Gandhi

Message From The Principal

Ms Sharmila Chatterjee

Principal

**Billabong High International School
Noida**

**The same stream of life that runs through my veins
night and day runs through the world and dances in
rhythmic measures.**

Gitanjali

Stream of life is endowed with knowledge,
intellect and wisdom.

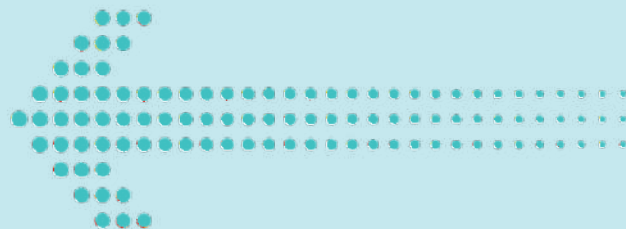

Dear learners,

As you progress and grow in life, and move from one grade to another, the stream of life takes its turns filled with sunlight and sometimes shades and shadows. The learning never stops. The changes you experience enlighten you with further knowledge, enhance your intellect and bestow wisdom, making you wiser, better and more secure.

Dear learners at Billabong, we intend to nurture your inherent potential by opening panorama of brilliant opportunities and possibilities. The school which is your second home is also preparing you to be future ready equipped with twenty first century skills of creative thinking, digital literacy, good citizenry, cultural empathy, ethical decision making and above all leadership skills.

We are filled with pride and joy at each of your achievements whether small or big, ushering moments of celebrations in school. Dear learners, you bring glory to the school. Thus we wish that each one of you has a glorious year ahead and flourish in all spheres of your life.

Let the stream of your life be filled with cascading joy, love, compassion and continuous learning!

Collaborating for success...

The School Coordinators

“As we reflect upon another incredible year gone by, we are reminded of the four essential traits that have made our odyssey so remarkable: Resilience, Metacognition, Communication, and Collaboration.

Resilience has been the backbone of our school community, as we navigated challenges and overcome obstacles together which our students have shown through their determination and perseverance. As we continue emphasizing upon the significance of 21st century skills, Metacognition stands as a powerful tool in the journey, enabling the learners to think critically about their own learning processes.

Effective Communication has been the thread that has woven students, teachers, and parents together to create a culture of open and respectful communication, fostering strong bonds and a sense of belongingness. Finally, Collaboration which has been the catalyst to unlocking our full potential through essential skills like teamwork, problem-solving, and leadership.

As a part of BHIS Team, we mentors look forward to providing our learners with the best of opportunities to strengthen and refine their skills and abilities and bloom into the best versions of skilled global citizens.

Wish you all the best of luck!

Ms Anu Prabhakar
Academic Coordinator
Preparatory & Middle Years

At Billabong High International School, Noida, we recognize that every child is distinct, and education serves as the catalyst that refines their overall character and nurtures their inherent talents. We are committed to instilling qualities such as initiative, critical thinking, creativity, empathy, and optimism, shaping our students into the agents of change the world needs.

In our pursuit of excellence, we aspire to develop well-rounded individuals who can confidently navigate the complexities of life and act in the service of the greater good. We firmly believe that education is not confined to the boundaries of textbooks or rigid disciplines. It is an ongoing, dynamic process that happens outside classrooms as well when minds are open to the flow of ideas, when learners observe the world around them and wonder and ponder.

Our school offers a nurturing and stimulating environment, akin to the care a sapling receives as it matures into a strong, mindful tree. We are dedicated to cultivating zealous, healthy, and forward-thinking individuals equipped with the critical skills needed to excel in the 21st century, preparing them to lead with purpose and vision.

Learning is a lifelong journey, and our students are encouraged to embrace this continuous process. As the famous author and entrepreneur Anthony J D'Angelo aptly puts it, “Develop a passion for learning. If you do, you will never cease to grow.” This mindset fuels our commitment to fostering a culture of perpetual growth, excellence, and self-discovery. At Billabong High International School, we are resolute in guiding our students toward a future of success, growth, and global impact.

Ms Ritu Guglani
Academic Coordinator
Secondary Years

A year and a half ago, we took our first steps toward establishing an international Cambridge pathway at Billabong High International School. With the introduction of the Cambridge program, we embarked on an exciting new chapter—one that brings global perspectives, inquiry-based learning, and a dynamic approach to education. Today, as we reflect on the path we have travelled, there is much to celebrate.

The foundation has been laid. Our students, who embraced this new way of learning, have shown remarkable growth. Our teachers, having undergone rigorous training, have adapted beautifully, bringing the Cambridge philosophy to life in their classrooms. The energy in these spaces is palpable—students question, explore, and connect ideas in ways that are shaping them into confident learners of the future.

Yet, as with any meaningful journey, this is only the beginning. Growth takes time, and while our progress is evident, there is still much to accomplish. Next year, we take another leap forward. We plan to introduce a seamless learning continuum expanding it further.

These are ambitious goals, but we are undeterred. Every great institution is built step by step, fueled by the belief that persistence and passion lead to excellence. With each milestone, we reaffirm our commitment to shaping an educational experience that is not just about knowledge but about developing thinkers, innovators, and leaders.

Dr Preeti Ahuja
Academic Coordinator
Cambridge Curriculum

Sanchetna is more than just a learning space - it's a place where every child is valued, nurtured, and empowered to reach their full potential. We believe that true education goes beyond academics; it's about building confidence, independence, and a sense of belonging.

Throughout the year, we have witnessed remarkable progress in our students—from mastering new skills to expressing themselves with joy and creativity. Our dedicated team of educators, therapists, and support staff work hand in hand with families to create individualized learning experiences that cater to each child's unique strengths and challenges.

We are proud to see our students not only thrive academically but also grow as compassionate, confident individuals who contribute meaningfully to our school community. As we continue this journey of inclusion and acceptance, we look forward to celebrating many more milestones together.

Ms Tripti Singh
Rehabilitation Professional
Academic Coordinator Sanchetna

Did you know that a child's brain develops rapidly from birth till 8 years of age? This means that early childhood education has a profound impact on a child's future academic success. So, all the teaching-learning done in early years by parents, teachers and other caregivers is extremely important. Instilling a love of learning into a child is a critical task and it's crucial that we get started early. Learning experiences for children in these years must be an amalgamation of activities and skills, while encouraging them to enjoy the process of learning and growth. As we celebrate 20 years of Kangaroo Kids, Noida we uphold our vision of fostering a love of learning by providing a supportive environment that values curiosity, creativity, and critical thinking. Simply put our mantra is, to empower students to become lifelong learners who are adaptable, resilient, and passionate about making a positive impact on the world. Through a balance of academic rigor, extracurricular activities, and opportunities for personal growth, we feel our learners develop the skills and mindset needed to navigate challenges, pursue their passions, and contribute meaningfully to society.

Ms Zoya Rizvi
Academic Coordinator
Foundational Years

The School Council...

Leading with kindness, compassion and integrity

The path to becoming the School Head Boy has been a journey of dedication, growth, and many diverse experiences. I have participated in countless events, developed my skills, and embraced many leadership roles, including serving as the captain of the school football team. Balancing academics with extracurricular activities and sports required a lot of planning and time management. I am committed to upholding the values of integrity, empathy, and excellence.

Bhaagyesh Karan
School Head Boy

The tenure as the school head girl has been an intricate tapestry of experiences and opportunities which were surely constructed with challenges that have helped me redefine my character and authenticity. I understood and embraced the qualities within me which I hoped to present as a catalyst for transformation and positivity.

My journey has brought up many lessons of resilience, teamwork, empathy, adaptability and a sense of unity. This motivated me to guide, understand and listen to my peers while being true to my principles. This role has provided me with improved understanding, a chance for personal growth shaping me into a leader who is considerate yet driven too. This experience has been instrumental in shaping my character defined by actions that resonate more powerfully than words ever could.

Supriti Roy
School Head Girl

The Student Council Head Girl journey has led me to discover a passion for extracurricular activities through events like Model UN, and adolescent education program. I learned that leadership involves trial and error, and failure is not a setback but a lesson. This newfound understanding has deepened my commitment to leading with integrity. I humbly strive to embrace my responsibilities and lead with compassion.

Tara Sushling
Student Council Head Girl

Good leaders make mistakes and learn from them. Being a leader isn't about holding a position, its about leading your teammates through the difficult journeys and achieving your destinations irrespective of the result.

My journey to becoming a leader was filled with a lot of ups and downs. Being new to the school I had given up hope at getting anywhere in the student council but the relations and friendships that I made after coming to the school, the amount of support and help I got from my friends, my teachers and other mentors has carried me through the hardships and made me into the person I am now and my only goal has been exceeding their expectations from me to show them their support and effort was worthwhile. Being able to give equal opportunities to every student just as I was given to give birth to new leaders is how I can pay back the school for the opportunity that I got. A leader is not a person who performs better than everyone else, but someone who can make others perform better than they ever could.

Vihaan Pandey
IT Head

Becoming the Vice IT Head of Billabong has been a transformative journey. It began with my passion for technology and problem-solving, which grew into a responsibility to lead and innovate. I've had the privilege of organizing events like Teqnet, assisting peers, and enhancing the IT infrastructure. Collaboration and adaptability have been key lessons, as I've worked with students from all classes to overcome challenges. This role has not only refined my technical skills but also my ability to communicate and lead effectively. It's been a fulfilling experience that has shaped me both personally and educationally.

Prithu Keshav Rai
Vice IT Head

Leadership is guiding and inspiring others to achieve common goals by setting a vision, motivating people, and fostering collaboration and growth. Becoming the Cultural Head has been a remarkable journey of growth and discovery. It all began with a deep-seated passion for music. I started by actively participating in various cultural events.

Taking on this role challenged me to develop my leadership skills, from managing teams and coordinating events to handling unexpected hurdles with grace. Each event was an opportunity to inspire and be inspired, as I worked closely with fellow students to create engaging and memorable experiences. Through this journey, I've learned the importance of vision, dedication, and the ability to listen and adapt.

Kopal Jain
Cultural Head

Being the Vice Cultural Head of my school has been an incredible journey of growth and learning. At first, I joined because I wanted to contribute to the cultural life of the school, but I soon realized how much more it would teach me. Organizing events, working closely with my peers and teachers, and coordinating everything from rehearsals to final performances gave me a deeper understanding of teamwork and responsibility. It wasn't always easy—sometimes there were last-minute challenges or unexpected changes—but overcoming those moments showed me the value of staying calm and finding solutions together. What stands out the most is the joy of motivating others, watching them grow, and seeing the final product of our hard work come to life. This role has not only sharpened my leadership skills but also deepened my love for creativity and culture. It's been an unforgettable experience that has shaped me in ways I never imagined.

Trisha Mehra
Vice Cultural Head

Leadership is fundamentally the art of empowering and nurturing the latent potential within others. It goes beyond mere task management, focusing instead on inspiring and cultivating talent. Effective leaders navigate with foresight, adaptability, and collaborative spirit, creating an environment where team members can excel and evolve into future leaders.

Serving as the literary head of the BHIS student council has been a transformative journey so far. Throughout this odyssey, I developed resilience, adaptability, and an unwavering commitment to fostering creativity in others. It not only refined my leadership acumen, but also reinforced my conviction in the power of collaboration. It has challenged me to step up, transcend my boundaries and prove to be an effective leader.

Anushka Agarwal
Literary Head

Serving as the Vice Literary Head of my school was an enriching experience. My role involved selecting thought-provoking topics for inter-house debates, compering at various school events, aiding the Literary Head, and supporting peers in preparing for literary competitions. These opportunities allowed me to sharpen my organizational and communication skills while representing my school with pride. Collaborating with talented students and contributing to the school's literary culture deepened my connection to the school. These moments weren't just about the assigned tasks but about the teamwork, creativity, and school spirit we share.

Bhavi Chaudhary
Vice Literary Head

Leadership: We've grown up hearing so much about this term to the extent that we don't know what to believe. Is a leader someone who controls everything and doesn't believe in 'delegation'? Or is a leader someone who sits back and asks their team to figure it out on their own? Or is it someone who micro manages so much that no one feels like they belong anymore? I personally have been conflicted about the true definition of a leader in the past, but with time I've learnt that every leader finds their own way. Having been a sportsperson for so long now, I understand the amount of dedication, unity and teamwork it takes to make one's journey as a sportsperson successful. This school has instilled a sense of belongingness in all of us and I am extremely grateful for that.

Kimaya Arora
Sports Head

"A great leader doesn't just play the game; they change how the game is played."

It is very well said, leadership in sports isn't just about winning trophies, rather it's about focusing on yourself and maximising your potential. Emphasizing more on the various attributes of a sport, one can very well acknowledge the responsibilities and leadership skills one inculcates in their life while dedicating their time to a sport. Having played table tennis for more than 9 years, I have realised the immense patience one needs to tackle each shot, the consistency one needs to improve each day and the decisiveness one needs. During the match, in the heat of the moment, a split-second decision can change the outcome of the game.

This journey not only reinforced the value of teamwork but also helped me grow as a confident and responsible leader leaving me with valuable memories and skills that I will carry forward in every future endeavour.

Naina Batra
Vice Sports Head

Being the house captain has been an incredible journey of leadership, teamwork, and personal growth. From the moment I was entrusted with this role, I knew it came with great responsibility. Leading my house in various competitions, organizing events, and motivating my team has been both challenging and rewarding. I realised the importance of trust and communication within a team. There were moments of struggle, but overcoming them with my team strengthened our bond. Winning or losing, I, along with my team ensured that we work together for mutual growth. This experience has not only shaped me as a leader but also as a confident and responsible individual. I will always cherish the time I've spent here as the Equality House Captain.

Anahita Prasad
Equality House Captain

Leadership is the ability to guide, inspire, and influence others to achieve common goals. At its core, effective leadership is about understanding people, making decisions that serve the greater good, and creating an environment where individuals feel valued and motivated to contribute their best. A great leader doesn't simply direct but serves as a role model, demonstrating the values and work ethic they expect from others. As the vice house captain I learnt that leadership is not about authority; it's about influence and the ability to empower others. A leader who listens, offers guidance, and encourages growth fosters loyalty and drives success. By cultivating trust and providing opportunities for development, leaders help others recognize their potential and become leaders in their own right.

Akshita Sharma
Vice House Captain, Equality

Being house captain has been an unforgettable journey that has taught me invaluable lessons. As House captain, I was honoured to lead my house, guiding and inspiring to achieve our best. Fiercely proud of my house, I focused on fostering teamwork, leading house events, motivating members and ensuring everyone felt included. Our house mentors supported us every step of the way offering guidance, while the vice captain helped us keep organised and motivated. Together, we faced challenges, celebrated victories, and learned from setbacks.

As I reflect back on this experience, it has made me more confident in my abilities, preparing me for the future and leaving me with memories I'll always cherish!

Naina Kakkar
House Captain, Freedom

Stepping into the role of Vice House Captain of Freedom House was both an exciting and unforgettable experience. From the very beginning, I was determined to make a difference, not just in terms of victories but also by fostering a strong sense of unity and enthusiasm within the house. I had been an involved member of my house from the start, so I was well connected with my peers and my moderators which made working in a team so much easier. One of the most thrilling aspects of my journey was organizing and participating in the inter-house dance and music competitions. These events were not just about showcasing talent but also about teamwork, creativity, and perseverance. I worked closely with my team to select the best performances, ensuring that everyone felt confident and motivated.

Annika Tewari
Vice House Captain, Freedom

A Journey of Leadership, Friendship, and Triumph: My Experience as House Captain

Leadership is often perceived as a position of authority, but my journey as House Captain taught me that it is, above all, about friendship, unity, and resilience. From the moment I was elected to represent my house, I knew this role was about more than just winning competitions—it was about creating a sense of belonging, lifting each other up, and ensuring that no one felt left behind.

There were moments of great triumph—winning inter-house competitions, seeing our hard work pay off, and feeling the electrifying energy of our house cheering together. Those moments were nothing short of magical.

Janvi Anneja
House Captain, Peace

When I first stepped into this role, I knew it would be a challenge, but also an opportunity. I have learned that being a leader means leading by example, staying dedicated, and always putting the team before myself. Whether it's cheering for our house during competitions, motivating my peers, or assisting our House Captain, every moment has been a lesson in teamwork and resilience.

This journey has taught me that leadership is not about being the loudest voice but about making a difference through actions. As I continue in this role, I promise to give my best, support my house, and inspire others to step up as leaders too.

Kiarra Khurana
Vice House Captain, Peace

Being a school house captain is both an honor and a challenge. It's a mix of pride and responsibility, knowing that you're leading your peers and representing your house. You're the go-to person for encouragement, setting the tone for teamwork and school spirit. While it can feel overwhelming at times, there's a sense of accomplishment in guiding your house to success. It also pushes you to develop leadership skills, problem-solving abilities, and the confidence to handle different situations. Ultimately, it's a rewarding experience that builds character. Being the House Captain gives me a sense of leadership—you're representing your house, motivating teammates, and sometimes even organizing events. It can also come with challenges, like balancing authority and coordinating with your peers, but it usually makes you grow as a person.

Yaksh Singh Sami
House Captain, Unity

Leadership is not about a title—it's about responsibility, teamwork, and growth. My journey as the Vice House Captain has been nothing short of transformative.

When I was entrusted with this role, I knew it would come with challenges, but I also saw it as a chance to inspire and uplift others. From organizing events to motivating my team, I have learned that true leadership is about serving others, not just leading from the front.

This journey has taught me that leadership is not about perfection, but about progress. As I continue in this role, I hope to leave behind not just achievements, but a spirit of unity and determination that will inspire future leaders.

Shreya Karmakar
Vice House Captain, Unity

Celebrating the visionaries who shaped the school legacy... *Founder's Day*

On 6th February 2025, BHIS Noida family came together to honor the legacy of our founder, late Shri M.S. Gandhi. Management, teachers, and learners paid heartfelt homage and sought blessings for the road ahead. In a heartfelt ceremony, Chairman Mr. Parmjit Gandhi felicitated our outstanding academic and sports scholars, recognizing their dedication and achievements. He extended his best wishes for their future endeavors, inspiring them to reach new heights. As we reflect on our journey and look to the future, we are committed to nurturing our learners' holistic development. Together, we continue to strive for excellence and make our founder's vision a reality.

Farewell 2024-25

A Bittersweet Goodbye & New Beginnings

Goodbye

Billabong High International School, Noida, bid a heartfelt farewell to its Grade 12 students on February 5, 2025—a day filled with emotions, nostalgia, and celebration. Organized by Grade 11, the event was a tribute to the memories made, lessons learned, and bonds cherished over the years. As our graduates step into a world of endless possibilities, they carry with them the knowledge, values, and spirit of Billabong. Wishing them success in every step of their journey ahead!

kangaroo kids

Little **minds**, big **discoveries**
Kindergarten **adventures** with the **young joeys**...

Pottery activity - Clay, Glaze and Amaze. Unlock the Magic, Let Your Mind Swirl

Van Mahotsav - Creating happy tomorrows today. Let's sow the seeds of tomorrow, plant trees today."

Christmas celebration - Jingle all the way!
The spirit of Christmas is the spirit of love and of generosity and of goodness!

Creative hand - Let the brush tell your story! Unleash Your Imagination, Give Your Face a Sensation!

Reading time - Where words come to life! The more that you read, the more things you will know. The more you learn, the more places you'll go !

School tour - Connect, learn and grow ! Explore the pathways of knowledge, where every step is a discovery!

Sports day- Play with heart, win with honor
"The game may end, but the lessons it teaches last forever."

I kan sports day - Joy of learning!

Technology meets learning - Empowering minds, enhancing futures

Special Days - Making memories, one joyful day at time !

Children learn as they play most importantly in play children learn how to learn !

Seasons - Things we wear in summer!

Pretend play - Where imagination takes flight !

Community Helpers

Mother's day celebration - Smiles are our superpower

No language can express the power and beauty and heroism of a mother's love !

Grandparents Day - A special day for special people

"Grandparents, like heroes, are as necessary to a child's growth as vitamins."

Field Trip - Play, laugh, learn outside

LITTLE EXPLORERS, BIG ADVENTURES

Snapshots

Grades 1, 2

Capturing the joy and wonder through their learning

Activities - Bonding and learning beyond the books. It paves a way of flying into a world of creative imaginations leading to new inventions. Hustling Brains!

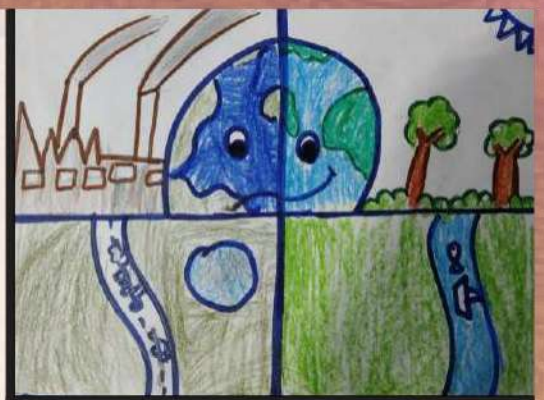

Culmination - Ending the curriculum with activities engaging models, fun games and exciting activities.

Assemblies - Engaging young learners while being educational and entertaining. To make the learning experience enjoyable and memorable, while also helping students understand important life lessons.

A large collage of 24 photographs showing students in purple uniforms participating in a '100 FARM BANK' project. The photos depict various activities: students working on posters, displaying their work, performing on stage, and interacting with adults. The project is titled '100 FARM BANK' and includes a '100 FARM BANK' sign.

Sanchetna - (A centre for students with special needs)

...Beyond limitations, lies limitless potential

Awards And Achievements...

- State The Government of UP, Department of Empowerment of persons with disabilities Has honored Sanchetna with the prestigious State Award for the empowerment of persons with disabilities.

Autism Awareness Day

Autism Awareness Day was celebrated with an awareness program to educate teachers and students about autism and effective ways to support students with it. Such initiatives help create a supportive learning environment for all students.

Mental Health Day

World Mental Health Day, observed on October 10th, highlights the importance of mental well-being for students, teachers, and parents. To promote awareness. Schools play a key role in fostering emotional resilience and a supportive environment.

Conclave, our school's awareness program for teachers and parents, with guests Merry Barua and Preeti Siwach. They shared valuable insights on the inclusion of students with disabilities in schools and society. The session emphasized the importance of empathy, support, and creating an inclusive environment for all

Matrix, our school's science exhibition, showcased a variety of experiments, sparking curiosity and innovation among students. These hands-on demonstrations provided valuable exposure to scientific concepts, making learning interactive and engaging. Such events enhance critical thinking, problem-solving skills, and a deeper understanding of real-world applications

Srijan Sangam 2025: Unity in Diversity

Srijan Sangam- Sanchetna successfully organized Srijan Sangam, an inter-school event celebrating the talents of special needs students, a total of 8 schools participated. The event focused on various skill areas, including linguistic, sensory, life skills, and visual arts, providing a platform for creativity and self-expression. Participants showcased their abilities through engaging activities, fostering confidence and inclusivity. The event highlighted the importance of skill-based learning and encouraged holistic development. Schools came together in a spirit of unity, making Srijan Sangam a memorable and enriching experience for all.

Faculty Development Programme...

Empowering educators through continuous learning

स्वर्ण विद्या क्लासेस

...Empowering Girls, Inspiring Women

हमारा विद्यालय अपनी स्थापना के 7 वर्षों को सफलतापूर्वक पूरा कर चुका है। यह 7 वर्ष केवल समय की गिनती ही नहीं, अपितु उन उपलब्धियों और यादों का संग्रह है जो हमारे विद्यालय परिसर ने मिलकर रची है। इन वर्षों में हमारा विद्यालय शिक्षा, संस्कार और समर्पण का आदर्श केंद्र बना है।

विद्यार्थियों की शैक्षणिक सफलता उनकी नैतिकता ने विद्यालय का नाम रोशन किया है। खेलकूद, सांस्कृतिक कार्यक्रमों और विज्ञान परियोजनाओं में छात्राओं ने उल्लेखनीय प्रदर्शन कर हमारे गौरव को बढ़ाया है।

अभिभावकों का विश्वास और समर्थन हमारे साथ रहा है।

हमें विश्वास है कि आने वाले वर्षों में भी हमारा विद्यालय इसी प्रकार सफलता की नई ऊँचाइयों को छुएगा और न केवल शैक्षणिक बल्कि समाज सेवा में भी एक आदर्श स्थापित करेगा।

A New Era of Learning: The Cambridge Curriculum at our School

Education for a Changing World

The world is evolving rapidly, and education must keep up. With the introduction of the **Cambridge International curriculum**, our school is stepping into a new era of learning—one that moves beyond memorization and encourages students to think critically, express themselves confidently, and apply their knowledge to real-world challenges.

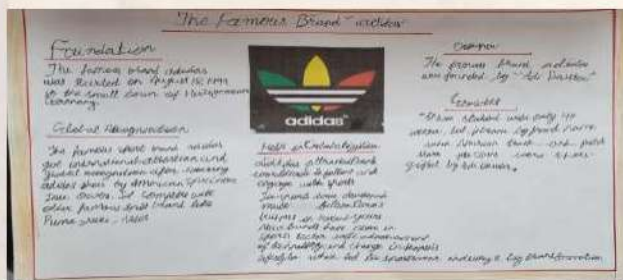

This curriculum is designed to prepare students not just for exams, but for life. It builds essential skills that will help them succeed in a fast-changing world—problem-solving, creativity, leadership, and global awareness. Here's how we are making learning more meaningful and engaging.

Bringing Science and Mathematics to Life

Students learn best when they can connect what they study with real experiences. In our **science classrooms**, they aren't just reading theories—they are experimenting, questioning, and discovering. From studying how music affects plant growth to exploring chemical reactions, our students get hands-on experience that makes science exciting and relevant.

Mathematics is also more than just numbers and equations. With projects like the **Dodecahedron Challenge**, students explore geometry in a creative, interactive way. By applying math to real-world situations, they understand its importance and develop a lasting interest in the subject.

Mastering Communication: Language, Literature, and Debate

Strong communication skills are essential in every field. Our **English curriculum** encourages students to go beyond the pages of a book, engaging in **debates, storytelling, and theatrical performances**. Whether they are analyzing Shakespeare or crafting persuasive speeches, they gain the confidence to express themselves clearly and effectively.

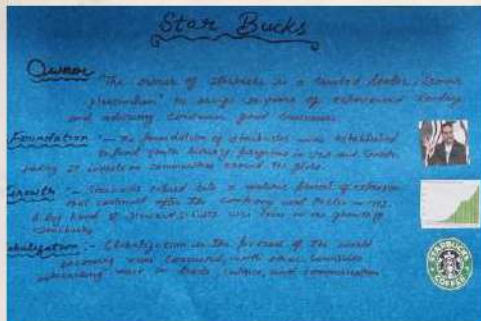

Our **Model United Nations (MUN) program** takes this a step further. By representing different countries and debating real-world issues, students develop skills in negotiation, diplomacy, and leadership. They don't just learn about global affairs—they step into the shoes of decision-makers.

Economics in Action: Learning from the Real World

Economics is all around us, shaping the way businesses run and governments make decisions. Our students engage with real-world financial issues, from analyzing the impact of **global events like the Paris 2024 Olympics** to developing their own business plans. They don't just memorize concepts—they learn how to apply them in real situations, preparing them for careers in business, finance, and policymaking.

By studying sustainability in economics, students also explore how industries can **balance growth with environmental responsibility**. They learn that smart decision-making today can create a better world tomorrow.

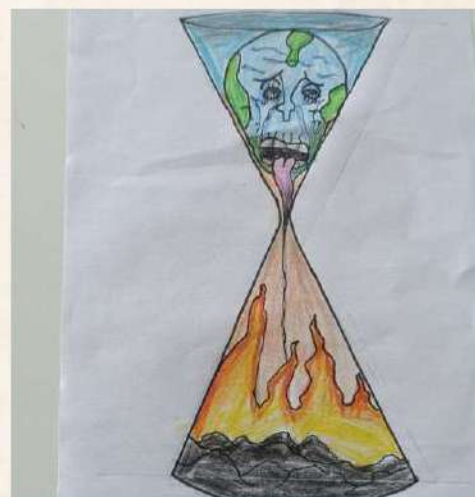

Beyond Academics: Building Character and Responsibility

Education is not just about academic success—it's also about becoming a responsible and thoughtful individual. Our students take part in community initiatives, such as supporting school laborers and helping those in need. Through these experiences, they learn the importance of **kindness, responsibility, and making a positive impact**.

Looking Ahead: A Future of Possibilities

The Cambridge curriculum is more than just a new way of learning—it is a step toward a future where students **think for themselves, challenge ideas, and solve real problems**. As we move forward, we invite parents, students, and teachers to be part of this journey.

'Earth Symphony'

School Annual Concert

Kangaroo Kids, Sanchetna and Swam Vidya hosted the long-awaited occasion - The Annual School Concert 2024 'EARTH'S SYMPHONY'. The celebration commenced with Upstuti...the traditional Lamp Lighting Ceremony, a symbol of enlightenment, purity and prosperity as the melodious strings of the song Savours of Earth whiffed through the air by the young joeys and set a serene and reflective tone for the evening.

The school extended its warm welcome to the Chief Guest of the evening, Ms Shashi Tripathi, the President of Navy Welfare and Wellness Association (NWWA). Then it was time to bathe, rejoice, and explore the mind blowing mystical mesmerizing marvels of the nature to enthrall the audience with elation and mindfulness through the presentation NATURE'S JUNGLE JAM. What a beautiful rendition of the language of nature through rainfall rhythms, ocean's lullaby, wind whispers, birdsong symphony, insect serenade and forest bathing.

The School Principal Ms. Sharmila Chatterjee along with the School Council Heads presented the Annual School Report for session 2024-25 to apprise all of the school events and achievements.

Delving into the cosmos of literature and books leads us to an eternal bliss wherein we explore and travel through characters. This adaptation breathes new life into iconic stories, allowing viewers to experience the characters' journeys in a fresh and immersive way.

This harmonious blend of literature and theatre continues to inspire and entertain, solidifying the timeless appeal of the iconic characters.

So the audience fastened its seatbelts as all got ready to go on an odyssey of some great characters brought alive from page to stage through the presentation ON A EUPHORIC SOJOURN.

'TARANG' School Annual Concert

With open hearts and joyful spirits, BHIS Noida extended a warm welcome as it rolled down the red carpet for all the dignitaries, parents and invitees through its marvelous extravaganza = The Annual School Concert 2024 'TARANG'.

The school welcomed Padmashree Ms Geeta Mahalik, a leading Odissi dancer; Ms Deepika Negi, a News Anchor and special Reporter with NDTV and Professor Raziuddin Aquil, Professor of medieval and early modern history in the Department of History, University of Delhi.

The celebration commenced with Atjeevitha...the traditional Lamp Lighting Ceremony, a symbol of enlightenment, purity and prosperity. Lighting the lamp signifies the triumph of light over darkness and the power of knowledge to remove ignorance.

At the heart of invocation through dance lies the belief that movement is a form of prayer—a way to express reverence, gratitude, or plea to the divine. The essence of life and existence was celebrated through the Ganesh vandana Rendition VIJAY ULLAS which was truly a divine experience.

The School Principal Ms Sharmila Chatterjee along with the School Council Heads presented the school annual report displaying the achievements and accomplishments in the session 2024-25.

Poetry is not just to be read but to be lived, as it stirs the soul to awaken to its true nature—one with the divine, beyond all illusions. So it was time to get mesmerized as some mysteries, knowledge and teachings of Kabir...The Weaver of Words were unravelled.

ANNUAL CULMINATION MATRIX....

Get Hands - on, get curious, get creative through interactive exhibits

A vibrant celebration of creativity, curiosity, and the spirit of discovery unfolded at MATRIX 2024! Learners showcased incredible science projects centered around Sustainability and SDGs, sparking meaningful conversations with parents, guests, and faculty members.

The chief guests for the event were Vishesh Gupta, Chairperson of Bharat Soka Gakkai and Dr Debajit Palit, an educationist, author, Professor of Energy, NTPC School of Business, Noida

Their enthusiasm, coupled with innovative ideas, highlighted their commitment to building a sustainable future. From interactive displays to insightful discussions, the energy and zeal to learn and evolve were truly inspiring.

: OBJECTIVES :

- To empower the learners by rendering them a platform to express themselves using various mediums.
- To inculcate problem solving, decision making, critical and creative thinking skills.
- To inculcate a shared sense of responsibility towards forming a healthy and harmonious bond with nature and environment in order to promote a just and empathetic society.

Bharat Soka Gakkai ...Planting seeds of action to nurture peace and compassion

The school recently hosted a meaningful exhibition titled "SOHA: Seeds of Hope and Action," organized by Bharat Soka Gakkai. This event provided an incredible platform for students to showcase their creativity and ideas centered around the themes of hope, peace, and positive action. Students actively participated by presenting projects, artwork, and models that reflected the values of the Soka Gakkai movement. It encouraged them to reflect on their role in promoting peace, compassion, and social responsibility.

The event was not only an educational experience but also a celebration of the students' commitment to building a better world.

Rhetoric Rhythms ... The Pulse of Persuasion

Our club learners presented the "Cultural Mosaic" which highlights the richness of diversity in a society and emphasize how different cultures coexist while retaining their unique identities. A show where we celebrate the vibrant and diverse cultures from around the world. The activities included story telling, role play, drama, French songs and poems, Hindi Surtal Abhivyaakti, the song on 'Shiksha', My Folklore, My Pride - puppet show, Hasya Kavi Sammelan, Dance Drama and so on. The visitors were left in awe as they participated in some perplexing vocabulary games and quizzes.

PARAKRAM

The Power to Transform

नोएडा उत्तर प्रदेश स्थित बिल्लाबोंग हाई इंटरनेशनल स्कूल के छात्र - छात्राओं ने सामूहिक रूप से नुक्कड़ नाटक में भाग लिया। यह नाटक कमानी अहडिटोरियम में किया गया था जिसका शीर्षक पर्यावरण सुरक्षा था। सभी बच्चों ने इसमें उत्साह से भाग लिया जबकि दूसरा नुक्कड़ भारत मंडपम में किया गया। प्रगति मैदान भारत मंडपम में किए गए नाटक में सभी छात्रों की भागीदारी पूर्ण रूपेण सक्रिय तथा जीवंत थी। नुक्कड़ नाटक के दौरान बच्चे आत्मविश्वास से भरे हुए थे। उनके द्वारा किया गया अभिनय निसंदेह प्रशंसनीय रहा जो कि सभी को पर्यावरण तथा सड़क सुरक्षा के लिए संदेश देने वाला था।

Abhivridhi ...Rooting in Sustainability, branching towards new creation

The Abhivridhi club continues to inspire young minds to explore, experiment, and innovate, fostering a love for science. Models on sustainable energy explored renewable solutions, while forensic science presentations demonstrated the critical role of science in justice and order. The event was a vibrant and interactive gathering where learners showcased their curiosity, creativity, and scientific knowledge. From working prototypes of renewable energy systems to models demonstrating space exploration concepts, the learners impressed the audience with their ingenuity and understanding of modern scientific challenges. Adding a tech-savvy twist to the event, the Scratch games created by the learners stole the show. These interactive games not only reflected their programming skills but also incorporated scientific themes, making learning enjoyable and accessible for all attendees.

Astronomy

*...Exploring the cosmos
beyond the naked eye*

Astronomy sessions were quite vibrant and interactive wherein the learners showcased their curiosity, creativity, and scientific knowledge.

Some activities included in the Astronomy club are as follows:

Comet making activity:

- This activity provides an opportunity for students to make observations, discuss changing states of matter and demonstrate measuring skills.
- Solar observation is the scientific endeavor of studying the Sun and its behavior and relation to the Earth and the remainder of the Solar System.
- Students were provided with the telescope and trained to prepare solar filters. They were also given information about the other methods for safe solar observation.
- Students learned about how to go through celestial calendar and sky map.
- Finding direction during the day through leveler, compass magnetic needles and finding the sun angles.

Astrophotography:

- is the practice of taking photographs of celestial objects and events, such as stars, the moon, and meteor showers.
- Students were given the information about DSLR camera. Functionality of the DSLR camera and how to capture different pictures.

Hydro Rocket launcher:

A water rocket is a type of model rocket using water as its reaction mass. The water is forced

out by a pressurized gas, typically compressed air. Like all rocket engines, it operates on the principle of Newton's third law of motion.

Students prepared their own hydro Rockets and they launched their rockets.

Bliss in Balance

...Harmony Within, Harmony Around

The club learners organized a variety of engaging activities, leaving a lasting impression on visitors. Highlights included yoga sessions, informative pamphlets, the creative “Tree of Peace,”

and collaborative art. Visitors enjoyed games like the Balloon Pyramid Challenge, Trust Walk, and Hula-Hoop Dash. Role plays on social issues - No means No, Peace and Harmony, Road Rage, Impact of Social Media and Bullying inspired reflection, while feedback praised the event's inclusivity and creativity. The guests gained insights into the importance of collaboration and teamwork.

The learners participated in a variety of activities that captivated visitors and left a lasting impression. These included:

- Yoga Corner
- Yoga Desk
- Tree of Peace
- Add Your Touch
- Symbol of Peace (Dove)
- Champions of Change
- Teamwork Puzzle
- Balloon Pyramid Challenge
- Plate-Tapping Test
- Beam Balance
- Trust Walk
- Hula-Hoop Dash

Green Titans

...Adapting to a changing World

The learners showcased their enthusiasm and creativity through a variety of innovative activities. They enthusiastically took part in the tie-and-dye activity, creating vibrant samples using old clothes, promoting the idea of upcycling. They also crafted sustainable makeup using materials readily available at home, emphasizing eco-friendly practices. Adding to the excitement, they built a detailed model of a smart city, highlighting various sustainable practices such as renewable energy, waste management, and green spaces. The children created a storyboard that required elemental reckoning, demonstrating their innovative storytelling skills. They developed a working model of a water-cleaner boat for rivers and ponds, addressing the need for clean water bodies, and a vending machine for waste management, promoting proper waste segregation. One child designed a solar-powered microwave, showcasing an inventive use of renewable energy. Additionally, they conducted research work on cyclones, delving into their causes and impacts, and explored the work of Greta Thunberg, emphasizing the importance of climate activism. The children also created humorous memes to engage their audience and made homemade fertilizer using kitchen waste, promoting sustainable living practices. To further engage the audience, they performed a captivating puppet show and a nukkad natak (street play) on consumer protection. Their gaming corner became a crowd favorite, attracting numerous parents and children.

Infinity Innovators

...Innovating Tomorrow's Solutions Today

The Infinity Innovators club, based on innovation and technology integrated with science and humanity, is a dynamic platform that serves as a nexus for interdisciplinary collaboration and forward-thinking initiatives. It is a vibrant platform where students explore real-world challenges and create innovative solutions using design thinking principles. The club provided a space for creativity, collaboration, and critical thinking, enabling young innovators to develop practical models that addressed societal and environmental needs.

In this process, the learners **empathized** with real-world problems to deeply understand user challenges, **defined** clear problem statements to guide their solutions, **ideated** creative and effective approaches to tackle challenges, **prototyped** tangible models to test and refine their ideas and finally **tested** and iterated on solutions to ensure their practicality and impact.

The club successfully executed several remarkable projects, including:

- Microgreen
- Class room curator
- Resourceful learning
- Interactive learning platform
- Sugar smart project
- La da vinci bridge
- Hydro Tracker
- Logo design
- Hyperloop Transportation System
- Beehive Air Cooler
- Evolution of Food
- Light from Sunlight
- Blind Radar Shoe

Automatic Fire Extinguisher, Smart O Clock, Smoke detector, Antisleep alarm for the drivers , Lumina - Home automation system, Speed breaker detecting system, and a website for teenager's mental health and careers.

Students created games that highlight the importance of reducing sugar intake and choosing nutritious options, promoting health-conscious behavior among peers.

The club nurtured creativity and empowered students to reimagine possibilities, leaving a legacy of innovative thinking and sustainable problem-solving.

These projects not only reflect the skills and knowledge of our students but also their commitment to making a positive impact on the world. We are proud to see our young learners embracing the spirit of innovation and responsibility, truly becoming change makers of the future.

Numeric Canvas

...Creative Hands with Calculations

The club aimed to bridge the gap between mathematics and creativity, showcasing the practical applications of mathematical concepts through engaging exhibits, models, and interactive sessions.

Objectives

- To promote the interdisciplinary approach of mathematics and art.
- To encourage students to apply mathematical concepts innovatively.
- To enhance problem-solving and critical-thinking skills through hands-on activities.
- To create awareness about the real-world applications of mathematics.

Project 1: Unleash Your Inner Picasso

Project 2: Optical Illusion

Project 3: String Art

Project 4: 3D Sustainable Art

Project 5: Pixel Art in 3D

Project 6: City of Math

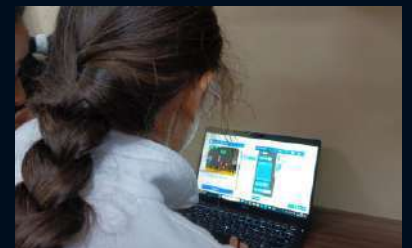

Project 7: Geometric Origami

Project 8: Tensegrity Structure

Unlocking secrets of endless possibilities through countless innovations... STEAM

Robotics is a multidisciplinary field that encompasses the design, construction, operation, and use of robots. Robots are programmable machines that can perform tasks autonomously or with human guidance. Robotics draws upon knowledge from various fields including computer science, mechanical engineering, electrical engineering, and artificial intelligence. Learners created their models which included automatic street lights, working on switches, and IR sensors. Learners also created cobots (collaborative robots) which can help advance agriculture and healthcare. The various projects that the learners worked upon are - Micro Bit, accelerometer, motion sensor, direction arrow using Make Code, 3D printer, bed telling, troubleshooting, 3D pen, basic shapes design using 3D pen.

At BHIS, Noida, we believe that curiosity is the key to unlocking the secrets of the world. With this in mind, we organized 'Constructrama-2024', an event that brought together the young minds of our school to showcase their scientific knowledge and creativity, highlighting the importance of curiosity and observation in the scientific process. The exhibition featured a range of activities and exhibits, including Breaking news from the lab, where students presented recent updates on the latest scientific discoveries; Robotics, where students designed and built their own robots; and Sustainable Development, where students showcased their ideas and innovations for a more sustainable future.

The science of tomorrow

MATHS WEEK

The Maths Week celebration at BHIS, Noida was a vibrant event that combined fun and learning. Students enthusiastically participated in a variety of activities that showcased their mathematical skills and creativity. The highlights included a Number Ninjas (Irregular Sudoku challenge), which sharpened problem-solving abilities, a unique Roman Numerals Tattoo Making called 'Romanize your Name' activity that brought history and math together in an artistic way, and a thrilling Inter-House Quiz, Mathematics Marvels, where teams competed to demonstrate their knowledge and quick thinking. Some of the other activities were video watch on Life of Ramanujan and a quiz, magic square, birthday budgeting and so on. The week was a great success, fostering a love for mathematics and teamwork among students.
